Company Overview

RomeCode, LLC is a leading provider of comprehensive technology solutions, specializing in cloud consulting, web/mobile development, hardware fulfillment, IT services, DevOps/SRE consulting, and on-prem server solutions. With a team of highly skilled professionals and a proven track record, we deliver innovative and customized solutions to help businesses thrive in the digital age.

Capabilities

- **Cloud Consulting:** Secure and cost-efficient migration to AWS, Azure, and GCP. Includes architecture, compliance, and cost optimization.
- **Web/Mobile Dev:** Craft custom websites and mobile apps that reflect your brand and prioritize user experience for a strong online presence.
- **Hardware Fulfillment:** Source, configure, install, maintain, and even deliver the hardware you need, streamlining your IT equipment needs.
- **IT Services:** Secure network design, systems integration, user support, and disaster recovery implementation.
- **DevOps & SRE Consulting:** Implement CI/CD pipelines, infrastructure as code (IaC), observability tooling, and incident response playbooks.
- **On-Prem Server Solutions:** Design and secure physical servers within your data center, handle hardware provisioning and configuration, optimize resource utilization with virtualization, and ensure server compliance.
